12	GST Rulings and Determinations	26	Search Instructions
13	Practical Compliance Guidelines		
14	Law Companion Guidelines		

**Goals, objectives and disclaimer:**

This product records relevant ATO material, cases and other material in respect of superannuation that is focused on SMSFs. It is therefore not intended to be an exhaustive reference tool; nor is it designed to be a substitute for any search engine such as the ATO's legal database. Any summaries should not be relied upon, and if you have any queries with the information contained in this product, you should consult a legal professional.

Its primary goal is to assist in finding the relevant ruling, etc, and then allowing a link to obtain the information. We have found this very valuable as it is often difficult to remember the particular reference that is being searched.

This product is an ongoing development exercise which we encourage feedback on so that we can add any other items of interest as you come across them. Please email the contact below so that your feedback can be taken on board to improve it.
